

Kickstart your ESG and partner with Bees & Refugees

Bees & Refugees work with our corporate partners to bolster and kickstart their ESG credentials and help to reconnect humans with nature through our insect hotels, managed hives and beekeeping workshops.

The partnership is an innovative and inspiring way to support our corporate clients' team building and employee welfare through the therapeutic relief that our beekeeping provides. By partnering with us, you'll also be playing a valuable role in supporting our work within nature and communities.

The funds raised through our corporate partnerships enable us to run workshops for refugees, charities and schoolchildren, as well as maintain our managed hives which are in place across Greater London.

What we are offering

- Get involved in our team-building days or book an away day
- Build stronger connections with your colleagues, de-stress, and get creative
- Workshops including an introduction to beekeeping sessions, hands-on beekeeping, candle making and honey tasting
- Managed Insect Hotels
- Managed Beehives

About Bees & Refugees

Bees & Refugees is an environmental justice organisation introducing beekeeping as a therapeutic & community-building craft to refugee and local communities in London, whilst supporting the UK's native black bee population to flourish.
